## **BUILT STRONGER TO TAKE YOUR JOURNEYS FURTHER**

### **BULLITE WHEELS IS THE NEWEST ADDITION FROM AUTOMATIC DISTRIBUTORS**

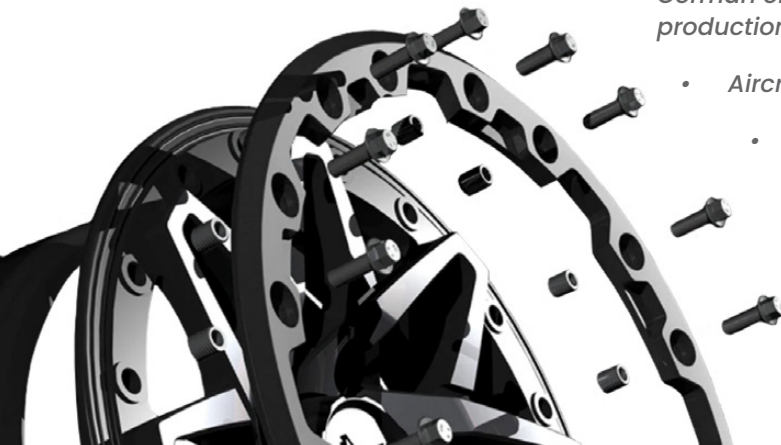

Bullite wheels is one of the leading powersports wheel design & manufacturing companies that designs, develops, manufactures wheels using advanced welding technologies, custom finish coating technologies. Bullite Wheels is committed to in-house research & development and intelligent manufacturing to create a better powersports riding experience that we are excited to now offer to our dealer network and customers.

#### **— SUPERB TECHNOLOGY —**

Excellence in innovation, design and manufacturing. Derived from Italian heritage and design, Bullite has a hand throughout each step of the process to deliver outstanding performance wheels.

- *Each rim is designed with a compact durable shell.*
- *German engineered machining along side low-pressure casting production surpasses industry standards.*
- *Aircraft-grade welding technology.*
- *Lead-Free process, utilizing sustainable paint technology which maintains durability in harsh conditions.*
- *Beadlock extreme testing ensures every wheel is made of high-performance materials machined with precision.*
- *Rigorous impact testing tests each wheel in the harshest conditions to ensure strength and durability.*

**BULLITE**

**STRONG AS A BULL  
LITE AS A FEATHER**

BULLITE wheel is an innovative new type of aluminum wheel. It combines the process of friction stir welding, roll-forming the rim, with a cast or forged disc. Its advantages are that it is lighter and stronger than traditional aluminum wheels.

**BUILT STRONG  
— INSIDE AND OUT —**

**Full Rolled Profile:** Increased strength of the rim flange.

**Roll Formed Aluminum Plate Rim:** Reduced thickness helps reduce the weight.

**Friction Stir Welding:** Weld all grades of aluminum alloy. No pores, cracks or other defects.

**Low Temperature Cast Disc:** Shorter casting time and denser grain structure.

**Forged Beadlock Ring:** Increased impact resistance, which reduces the risk of tire detachment.
