

LEN[®]
PERFORMANCE

PROUDLY DISTRIBUTED BY:

AUTOMATIC
DISTRIBUTORS

Len Performance was born in the core of the American Midwest, crafted by enthusiasts of the powersports sector and the vehicles they ride.

They embarked on a mission to create a series of high-performance shocks that could be trusted by riders, no matter if they were navigating the trails in Minnesota or exploring the backcountry of Wyoming.

They understood the desires of riders, seeking a shock that could be modified, adjusted, yet also easy to use.

Through collaborations with top-tier suppliers, they have successfully achieved this goal. They have introduced a range of 5-stage shock absorbers that are both adjustable and rebound-compression.

- FEATURES -

| EYLET/BUSHING

Forged Aluminum Head with Premium Steel and NBR bushings.

| RESERVOIR/FINDED RESERVOIR

Finned cooling system helps decrease temperatures and increases longevity and performance.

| COMPRESSION AND REBOUND ADJUSTER

Len shocks come standard with a 5 stage compression adjustment. User friendly intuitive design features 5 click compression adjustments for seamless adaptation to any riders experience level in any condition. Anodized dual ring locking adjusters make it easy to adjust your preload but ensure they stay set once you have them adjusted.

| INFINITE PRELOAD ADJUSTMENT

All sprunged shocks feature a threaded body for ultimate preload adjustability.

| REBUILDABLE/TUNEABLE

Value added rebuildable design increases the lifespan of our shocks and ensures performance for many years to come. Easily serviced with our expansive network of service centers.

| SHAFT

Hardened Chromoly shaft increases overall strength and seal longevity.

| SPRING

Springs are powdercoated to reduce corrosion, increase durability and ensure continued strength under the harshest of conditions.

BUILT BY RIDERS FOR RIDERS

Len Performance reservoir snowmobile shocks are designed and built with the focus on the rider.

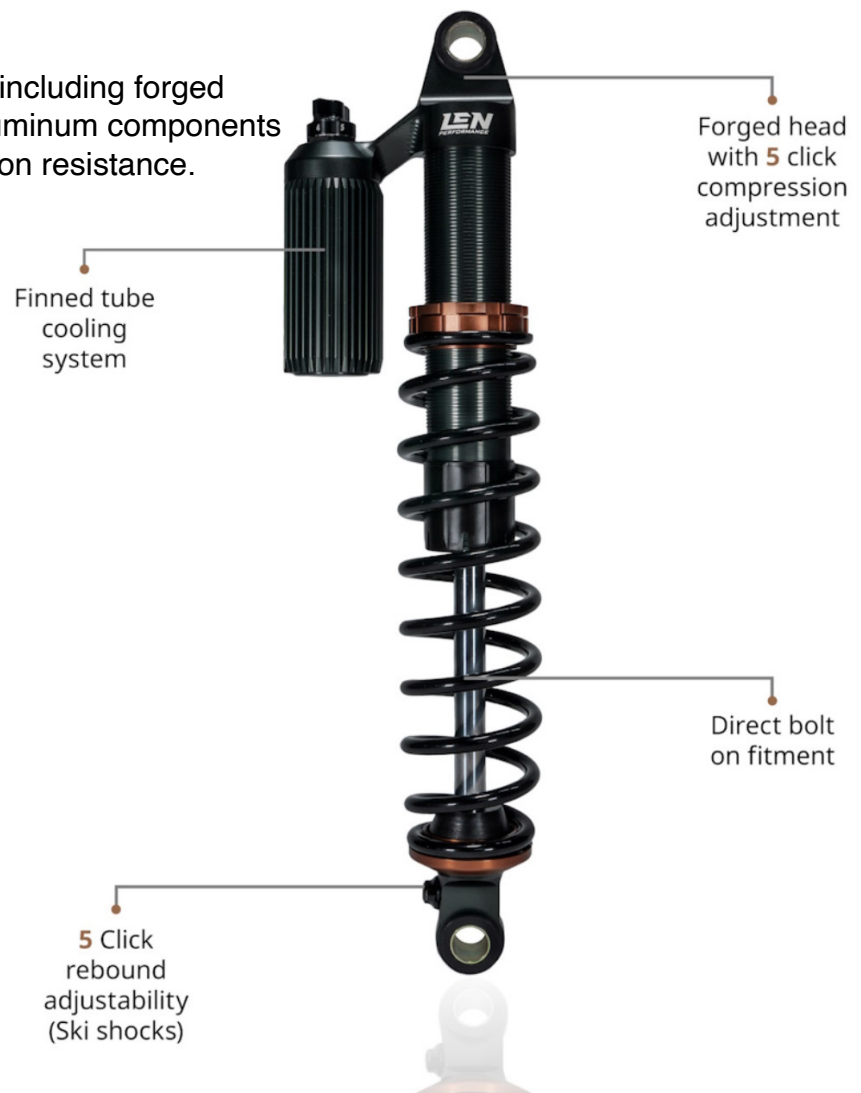

Len Performance shocks are ready to mount out of the box with preload adjustability and feature 5 click compression and rebound adjustments for front ski shocks and 5 click compression adjustment on all track shocks.

These range of adjustments help the rider easily fine tune the suspension to whatever their needs may be.

Len Performance aluminum reservoirs feature a finned cooling system which helps prevent performance robing temperatures and increases longevity and performance under the harshest conditions.

Len use only high-grade materials including forged aluminum head and anodize all aluminum components for increased durability and corrosion resistance.

With the focus on rider experience Len Performance has a network of rebuilders to help keep you on the trail.
